

T400

The T400			
Material quality	ABS, magnesium aluminum alloy, carbon fiber		
Endurance	>30min (payload <40Kg)	Generator power	20kW
Unfolded Size	2950*3300*1200mm	Oil consumption	14L/h
Storage size	1300*1100*1200mm	Fuel tank capacity	10L
Max takeoff weight	125Kg	Wind loading	Level 5
Max load capacity	50Kg	Max cruise speed	12m/s
Work Temperature	-10°C~40°C	Practical ceiling	<1000m
Driving method	Oil-electric hybrid	Controlling Distance	5KM (Scalable to 20KM)
